SUMMARY

Junior data analyst with hands-on Python, SQL, and Power BI work, backed by an IT support background with deep familiarity with the systems generating the data. Finishing an AAS in AI Data Specialist at WCTC. Recent projects include a Python ETL pipeline scraping web data into SQL Server, and a partitioned SQL Server database with audit triggers. Open to part-time or internship roles, remote preferred, Milwaukee/Waukesha area considered.

TECHNICAL SKILLS

Data & Analysis: Python · pandas · numpy · Power BI · Data Visualization · Jupyter Notebooks · BeautifulSoup · Web Scraping · REST APIs · JSON · requests · Excel · openpyxl · ETL · Data Cleaning · Aggregations · Pivot Tables · Matplotlib

SQL & Databases: T-SQL · SQL Server · SSMS · CTEs · Window Functions · Stored Procedures · Triggers · Database Design · ER Modeling · Partitioning · Filegroups · Indexing · Filtered Indexes · History & Audit Tables · Joins · Subqueries

Systems & IT: Active Directory · Group Policy · PowerShell · Windows 10/11 · Office 365 · ServiceNow · iSupport · Web Help Desk · Remote Desktop · VPN · Git · GitHub

DATA PROJECTS

Olympic Medal Data Pipeline 2026

WCTC Python Data Manipulation · Final Project

- Built an end-to-end ETL pipeline scraping Tokyo 2020 and Beijing 2022 medal pages from Olympedia using requests and BeautifulSoup; parsed the table structure manually after pandas.read_html failed on embedded flag images
- Enriched 1,344 medal records with continent and capital data from a SQL Server World database via pymssql; left-joined to handle IOC vs ISO country code mismatches
- Exported a multi-tab Excel workbook with openpyxl plus four pivot summaries (by continent/country, by Olympics, by medal type, top five countries)

Car Rental Database Design (SQL Server) 2026

WCTC Advanced SQL · Unit 3 Project

- Designed an 11-table relational schema from an ER diagram: surrogate primary keys, foreign keys, check constraints, and unique constraints on logical composite keys
- Implemented year-based table partitioning on Rentals and Reservation with a dedicated 2022 filegroup and data file; auto-detected the file path via SERVERPROPERTY for portability
- Built history tables and AFTER INSERT/UPDATE/DELETE triggers on six tables to track audit trails on rentals, reservations, payments, and the vehicles tied to them

Power BI Sales Dashboard · Web Scraping & API Labs 2025 – 2026

WCTC Data Visualization · Python Data Manipulation

- Built an interactive Power BI dashboard from structured sales data with regional KPIs, trend visuals, and slicer-driven filtering
- Scraped structured listing data with requests and BeautifulSoup; consumed REST APIs (iTunes Search) and persisted nested results to JSON

PROFESSIONAL EXPERIENCE

IT Help Desk Technician, Contract / Remote 2025

Puget Sound Energy · Bellevue, WA (Remote)

- Supported 5,000+ users remotely handling Tier 1 and Tier 2 issues via Cisco Jabber and Cisco Finesse
- Resolved 150+ monthly tickets in ServiceNow with consistent SLA compliance
- Coordinated with internal teams to escalate complex cases and reduce end-user downtime

Tools: Cisco Jabber, Cisco Finesse, ServiceNow, Windows 11, Office 365, Remote Desktop, Active Directory

Technical Support Administrator 2023 – 2024

Wolter Inc. · Pewaukee, WI

- Provided Tier 2 support to 200+ users across onsite and remote environments with minimal downtime
- Handled 40–60 technical requests weekly; resolved Active Directory account issues and hardware failures
- Automated routine admin tasks using PowerShell scripts

Tools: Windows 10/11, Office 365, Active Directory, Group Policy, ServiceNow, Remote Desktop, PowerShell

Service Desk Technician, Contract 2023 – 2024

CTAccess · Waukesha, WI

- Managed 20–30 daily tickets covering hardware, software, and user account issues across multi-client networks
- Resolved VPN access issues, remote troubleshooting requests, and network connectivity problems

Tools: Windows OS, iSupport, Web Help Desk, Office 365, Remote Support Tools, VPN, Active Directory

IT Help Desk Specialist II Jan 2023 – Jun 2023

City of Wauwatosa · Wauwatosa, WI

- Managed 10–20 daily help requests via phone, email, and ticketing with consistent documentation
- Resolved login issues, account unlocks, password resets, and printing problems for end users
- Prioritized and escalated complex issues to senior technicians to maintain resolution SLAs

Tools: Active Directory, Ticketing System, Windows OS, Office 365

Desktop Support Specialist – Internship Apr 2022 – Dec 2022

Batteries Plus · Remote / On-site

- Provided Tier 1 support for office and remote users; handled ticketing, routing, and escalation
- Configured equipment and user accounts for new hires; collaborated on laptop upgrade project
- Managed asset inventory in Snipe-IT and maintained G-Suite user accounts

Tools: G-Suite, Snipe-IT, Windows OS, Active Directory, Remote Support Tools

PERSONAL PROJECTS

Astral Platforms · Full-Stack Portfolio 2023 – Present

- Built 6+ full-stack web applications independently as portfolio practice; currently developing an AI-assisted mental health platform (in active development)
- Stack: Next.js, React, Node.js, Python, PostgreSQL

EDUCATION & CERTIFICATIONS

Waukesha County Technical College Waukesha, WI · AAS, AI Data Specialist · In Progress (Expected 2027)

Coursework: Advanced SQL, Python Data Manipulation, Data Visualization, Power BI

Milwaukee Area Technical College Milwaukee, WI · Associate Degree, IT Network Specialist · May 2023

Certifications: CompTIA A+ (2024) · CompTIA Network+ (2024) · Cisco CCNA (2022)
